**Subject:** Limetree Bay

Pete:

I am bird-dogging the CD modification from the OECA front office and David Harlow is doing the same out of the OAR front office. Providence Spina is our principal Air Enforcement Division staffer on the matter and I know she's working closely with Region 2 enforcement staff.

If you can think of a reason why it would be helpful for me (and OAR for that matter) to attend the LTB part of your meeting with Andrew, I'd be happy to make myself available.

Warm regards,  
Patrick
